We should put an ad in the phone again. It's free but we need to update it with logo and current happenings.

LOGO

We have a jpeg file of our logo. It's not compatible with a lot of documents or pictures. Or we need to recreate it to make it more versatile. We are trying to make it bigger to be able to put it on the window of the office. We need to convert our logo to a PDF. Should we remake the logo completely with a "logo" for Cascade. The board will discuss this option.

Budget

The board is discussing a budget that will be ready for next year. Our rough expenses will be:

\$3k for office expenses

\$10k for fireworks

\$2k for events

We should include "community giving" as a part of our budget as well. Also keep track of who we have given to in the past, and who we continue to support.
